PARTNERSHIP OVERVIEW / NOVEMBER 2026

Practical support. Meaningful connections.

Element
COMMUNITY ALLIANCE LLC

A new Wisconsin venture developing agency and community partnerships around the everyday work of recovery, stability, and follow-through.

JUNEAU, WISCONSIN / OPEN TO PARTNERSHIP CONVERSATIONS

01 Recovery & transition navigation

Practical, nonclinical coordination around referrals and transitions.

Appointment follow-through; approved resource connections; warm handoffs; housing, transportation, and benefits navigation.

02 Daily living & stability skills

Concrete routines that help people act on their next steps.

Employment readiness; job-search routines; budgeting and organization; transportation planning and housing readiness.

03 Program & community support

Defined project capacity alongside an established organization.

Outreach and referral workflows; administrative coordination; activity tracking in approved systems; community resource development.

Service readiness: Work is subject to verified staffing, applicable qualifications, written scope, privacy requirements, purchasing approval, and confirmed capacity. These are proposed partnership capabilities, not a statement of awarded contracts or current client availability.

PARTNERSHIP DESIGN / FROM CONVERSATION TO SCOPE

Start with the need.
Build something useful.

For county and tribal programs, established treatment or recovery providers, and community organizations exploring additional nonclinical support.

01 Understand the gap

Identify the people served, practical barriers, and where existing resources need additional follow-through.

02 Define responsibilities

Confirm roles, geography, qualifications, supervision where required, privacy, and purchasing requirements.

03 Agree on a manageable scope

Set a project or pilot timeline, service boundaries, documentation expectations, and payment terms.

04 Communicate and review

Use approved systems, report agreed activity, escalate concerns appropriately, and review the work with the partner.

FOUNDER

Christopher P. Roorda

Wisconsin SAC-IT #21187-130

Individual experience in residential recovery, case management, care coordination, and continuing-care follow-through.

AA completed
BS Human Services in progress

The SAC-IT is an individual credential with supervision and scope requirements. It is not agency certification.

Scope at launch: ELEMENT is developing nonclinical partnerships. Independent clinical treatment, certified peer services, direct insurance billing, and operating recovery housing are not represented as available services.
